SUBJECT : Redraft of PRM-11/Part 2 Outline

1. Here is a quick redraft and expansion of the PRM-11/Part 2 outline responsive (I hope) to the rump working group discussion we had on 14 March 1977. If this version (or something like it) holds up, I think we can start putting pieces together. Please note that length of the outline does not necessarily indicate length of the section.

2. Please comment by noon, 16 March 1977.

MEMORANDUM FOR:

*Looks like a comprehensive,
well structured outline.*

*I've flagged the separate
identification of analysis &
production as a possible
problem (we've already run into it--
Admiral Turner wanted costs of
each stated separately).*

*was concerned about
the sequence of DCI roles*
